Credit Card # _____ Exp _____

For shipping and collection purposes

(WE ACCEPT VISA, MASTERCARD AND AMERICAN EXPRESS)

Name of Card Holder _____

It is very important to call us on the first day of your Mares heat to schedule the transport of semen.

There is the possibility that due to excessive demand during certain days, it may be necessary to reschedule your mare, so the sooner we have your arrangements and dates the better (Mares can be easily and safely re-cycled with prostaglandin).

It is essential that you have the mare examined 16 to 20 days after breeding and a vet report filled in and sent to us at your earliest convenience or before October 1st, 2003 whether mare is in foal or not.
